Personal Independence Payment

Your application was unsuccessful

Date the letter was
produced]

Dear [first name]

Your application for Personal Independence Payment (PIP) was unsuccessful. This means you cannot get PIP at this time.

This is your PIP decision letter. It explains how we assessed your application and reached our decision.

How the decision about your PIP application was made

We looked at all the information available to us, including:

- [list of evidence used in the assessment]

We used this information to look at whether you can carry out 12 activities and the amount of help you need.

You are given points for each of the 12 activities, depending on your ability and how much help you need to do it. There are 10 activities for the daily living part of PIP and 2 for the mobility part.

You need to get 8 or more points for either part of PIP to be given that part.

If your circumstances change

Your circumstances may change. It may become harder to do everyday things. If there is a change in your daily living or mobility needs, you can apply for PIP again.

If you would like braille, British Sign Language, a hearing loop, translations, large print, audio or something else, tell us using the phone number at the top of this letter.
